Annual Review

SPSA Year Reviewed: 2022-23

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Teacher teams (PLCs) had the opportunity to meet outside of the designated PLC time to develop interventions and to streamline essential standards. In particular, our English and ELD teachers took advantage of this opportunity. We offered daily after school math tutorials, including a class that was devoted to our EL students. Our SPED team offered after school tutorials as well. We tried before school tutorials, but stopped as we were not getting the student participation needed. We continued our tradition of "Cowboy Catchup," which is general academic support on Saturdays. Our AVID program is staying steady at two classes per grade level. The AVID team has been able to return to their college visits.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Personnel shortages greatly impacted our ability to use our categorical funds this school year. This includes continued, year long vacancies for paraeducators. In addition, money budgeted for additional PLC planning time, professional development, and interventions were not fully utilized. The impact of the ongoing pandemic and the stress of returning to in person learning has exhausted our teaching staff. Some of SPSA plan has yet to be realized as we have money budgeted for summer school and spring intersession. In addition, some of the items we designated

site funds for were paid for by the District. This required us to move some monies to other categories.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

No changes were made to this goal.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

We continued to use an instructional coaching model. This year we had 4 part-time instructional coaches and 1 EL Specialist. This team, along with the principal, supported all teachers as we returned continued the return to in person learning. In particular they mentored our newer teachers. They organized learning walks and provided professional development at our staff meetings. We continued our New Teacher meetings throughout the year. We were once again able to allow staff to travel to conferences and this year teachers and administration went to CADA, the Learning Forward conference, AVID, ACTFIL, CTL, CSLA and CA Council for Social Studies.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Personnel shortages continued to greatly impacted our ability to use our categorical funds this school year. This includes continued, year long vacancies for paraeducators. In addition, money budgeted for additional PLC planning time, professional development, and interventions were not fully utilized. The impact of the pandemic and the stress of students dealing with anxiety and other

Annual Review

SPSA Year Reviewed: 2022-23

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Last year our PBIS program reached the highest level, awarded the platinum recognition. Due to district levels vacancies and loss of support, our site in not participating in the statewide recognition program this year. We continue to provide PBIS lessons and recognition for students and staff. There was an intense need for SEL support for students returning from distance learning and still

suffering from the effects of the pandemic. A social worker is part of our Tier 2 team. We added two Restorative Justice Facilitators that support students in our Wellness Center, along with the intervention specialist. The Wellness Center has started several groups that meet after school, including Girasol and Joven Noble. We send out a monthly newsletter highlighting the accomplishments of our students, as well as provided important information. We continued to use the communication platform of Language Line and Talking Points. Both of these provide staff the ability to successfully communicate with families that are not English proficient. Our freshman orientation and mentor program, LINK Crew, was fully operational this year. We have an active Diversity, Equity and Inclusion Committee, with both students and staff. Many of our PBIS lessons are focused on DEI material. Improvements have been made to the way our Wellness Center operates and more students are being served with the additional personnel.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Personnel shortages greatly impacted our ability to use our categorical funds this school year. This includes continued, year long vacancies for campus supervisors. In addition, money budgeted for additional PLC planning time, professional development, and interventions were not fully utilized. The impact of the ongoing pandemic and the stress of returning to in person learning has exhausted our teaching staff. Some of SPSA plan has yet to be realized as we have money budgeted for summer school and spring intersession.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

SPSA Year Reviewed: 2022-23

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

This is a new goal for our school. We have focused much of our work on supporting our EL students. This includes special professional development geared toward EL student support, additional EWAs for teachers and paras, afterschool tutoring with a priority given to math support, additional EL paras, field trips, and supplementary materials for EL students. In addition, some PLC are making EL student success a priority in their continuous improvement cycles. As part of this process, EL students were interviewed through an Empathy Interview method in order to provide additional information about their learning needs.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

There are no major differences in implementation other than budgeted funds for EWAs may not be fully used due to teacher and para exhaustion.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

The strategies and activities for this new goal were largely focused on additional hours for paras and teachers. We specifically concentrated our efforts on planning time in order to support our SWD students. There were also mentor study table/intervention sessions held for SWD students, led by Ed Specialists.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

There are no major differences in this goal other than some funds designated for extra hours might not be fully utilized due to employee exhaustion.

Annual Review

SPSA Year Reviewed: 2022-23

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Supplies were purchased and YIT students had those available. EWA time was allocated for attendance at after school meetings.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

This is a new goal for our site and it has been difficult to implement due to the vacancy of our Community Liaison position. Our supply budget will not be fully utilized, due to both the decreased

need by our site and the CL vacancy. The EWAs allocated in the budget will not be fully utilized due to the CL vacancy.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.
